

Game Day

To exercise the children's minds and bodies, the whole Center will participate in Game Day on
Thursday , February 5th!

Each classroom will enjoy a wide variety of both board games and movement games that will enhance the children's social, physical, and cognitive development.

Some of these developmental milestones will be practiced through sharing, taking turns, conflict resolution, team work, listening, dancing, singing, memorizing, and counting.

Let the games begin!
